

Ratio Exchange

Source Quicker, Solve Faster

The Ratio Exchange allows you to rapidly build, manage, and grow sourcing ecosystems.

Source Quicker

Finding companies and capabilities is a complex, expensive and time-consuming process. Sustaining this process is even harder as new companies, products, and technologies are being created every day while we sleep.

The Ratio Exchange solves these challenges by providing organizations with a Sourcing marketplace that is always on, and constantly growing every day.

Solve Faster

Solving a problem or challenge is not one dimensional. Today's solutions can come from multiple channels, unmined intellectual property, lab and university inventions, or adjacent use cases and implementation models. Organizational sourcing processes are not fast enough or equipped to engage the market at scale.

The Ratio Exchange is an always on sourcing ecosystem that enables the discovery and exploration of options and market capabilities.

Sourcing Ecosystem

The Ratio Exchange is a powerful and highly configurable and customizable platform that is trusted today by the Department of Defense and private organizations to create public and private ecosystems that reduce sourcing complexity, increase supplier diversity, and solving problems and challenges faster than traditional sourcing processes.

Sourcing Tools

The Ratio Exchange includes an integrated suite of tools and services to engage your sourcing ecosystem. Create sourcing projects, launch industry challenges, evaluate and score company responses, research the market, capture and manage problems and challenges, integrate with social media, publish roadmaps, collaboration, CRM tools, and much, much more.

Smart Sourcing

Let the Ratio Exchange do the heavy lifting for you. Use Auto and Smart sourcing tools to quickly scan dozens of sourcing channels to find companies who can solve your challenges, problems or needs. Then, dive deep into Company profiles and experience sets to validate skills and capabilities.

Sourcing Green Fields

The Ratio Exchange is constantly sourcing companies and capabilities so you don't have to. Our engines continuously find and integrate data from private and public sources and through partnerships with Brokers, Regional Development Authorities, Incubators, Accelerators, Economic Development Councils, and many others who have local intimacy with companies and their products and services.
